

YUNES AL-KHALEDI

Senior Flutter Developer | Mobile Application Development | Clean Architecture

+967-778420917 • yunes.alkhaleedi@gmail.com • linkedin.com/in/yunes-al-khaledi • github.com/Yonas4

PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience building production-grade mobile applications across FinTech, e-commerce, delivery, and content platforms. Skilled in translating complex business requirements into scalable, maintainable mobile solutions using Clean Architecture and modern Flutter/Dart practices. Shipped 9+ live apps to Google Play & App Store serving thousands of active users. Also experienced as a Flutter Trainer, mentoring 50+ developers on production-level best practices and real-world architecture patterns.

CORE TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Android (Java), iOS — Android Studio, Xcode, VS Code

Architecture & Patterns: Clean Architecture (Uncle Bob), MVVM, MVC, GetX, BLoC, Riverpod (with Riverpod Generator)

APIs & Backend: REST API Integration, JSON, Dio (Interceptor-based networking), Retrofit, Postman, PHP REST APIs, WebSockets (Socket.IO & web_socket_channel)

Databases: Firebase (FCM, Realtime DB, Cloud Storage, Analytics), SQLite, MySQL, Flutter Secure Storage, Flutter Cache Manager

Navigation & Routing: AutoRoute (type-safe navigation with code generation), GoRouter

Payments & Integrations: PayTabs (payment gateway), Intercom (in-app chat/support), URL Launcher, Contacts (flutter_contacts)

Analytics, Monitoring & Logging: Firebase Crashlytics, Firebase Analytics, Sentry (error tracking), Logger (structured logging)

UI/UX & Design: Material Design, Figma, Adobe XD, Responsive UI

DevOps & Collaboration: Git, GitHub, Slack, Zoho Projects, Agile/Scrum, Distributed Teams

Deployment: More than 9 projects published on the stores

PROFESSIONAL EXPERIENCE

Senior Flutter Developer | **siolla** | سيولا

Aug 2024 – Jul 2026 (2 yrs) Riyadh, KSA — Remote

- Developed and maintained core features for a large-scale, high-traffic mobile application handling sensitive user data and complex business logic.
- Implemented Clean Architecture with strict UI / Domain / Data layer separation — improving scalability, testability, and long-term maintainability.
- Integrated and secured multiple REST APIs, applying encryption and token-based authentication best practices.
- Optimized app performance for real-time data rendering and delivered features consistently within Agile sprint cycles across a distributed remote team.

Flutter Trainer | **BBSOFT Academy** / **Experts Institute**

Aug 2023 – Present (2+ yrs) Aden, Yemen

- Delivered structured Flutter & Dart training covering Clean Architecture, state management (GetX, BLoC), and production app patterns.
- Trained 50+ developers — curriculum spanned API integration, Firebase services, architecture design, and app store deployment.
- Designed hands-on exercises and project scenarios aligned with real industry workflows.

Mobile Developer — Flutter | You for Information Technology (YOU-IT)

Dec 2021 – Jul 2024 (2 yrs 8 mos) Aden, Yemen

- Built and shipped 9+ production Flutter applications across e-commerce, delivery, news, and utility domains — all live on Google Play & App Store.
- Led architecture decisions using Clean Architecture and MVC; integrated REST APIs and full Firebase ecosystem across all projects.
- Collaborated with UI/UX designers (Figma, Adobe XD) to deliver pixel-perfect interfaces; managed full app lifecycle from requirements to deployment.

Android Developer (Freelance) | Self-Employed

Jan 2020 – Dec 2021 (2 yrs) Remote

- Developed and published Android apps in Java using MVVM; integrated Firebase (FCM, Realtime DB, Cloud Storage) and AdMob monetization.
- Handled all project phases independently: requirements analysis, database design, development, testing, and Play Store publishing.

PRODUCTION PROJECTS — 9 LIVE APPS

Siolla. | سيولا Aug 2024 – Jul 2026

Siolla., built with Flutter, Clean Architecture, Riverpod, and secure REST API integration, is a comprehensive investment platform that turns your spare money into passive income, making investing accessible to beginners with zero extra fees or commissions.

The app provides modern analytical tools and real-time market data, lets you browse thousands of stocks and ETFs, all within a clean architecture that ensures secure data handling and complex business logic, helping you make better financial decisions with ease.

Tech: Flutter · Dart · Clean Architecture · REST API · Riverpod · Auto Route

Anis Phone App May 2024 – Jul 2024

E-commerce platform specialized in original iPhones and genuine Apple accessories in Aden. UX-focused design with organized product categories and a fast, smooth checkout experience.

Tech: Flutter · Dart · REST API · Clean Architecture · Figma · GoRouter

Links: [Google Play](#) · [App Store](#)

Medalah Store Aug 2023 – Sep 2023

E-commerce app for a nonprofit foundation — branded product sales funding community projects. Secure checkout with Firebase backend and a clean brand-aligned UI.

Tech: Flutter · Dart · REST API · Firebase · Material Design

Links: [Google Play](#) · [App Store](#)

STC Aden Oct 2023 – Dec 2023

Official news app integrated with YOU-IT's Jaridah CMS, delivering real-time news and push notifications to users in Aden Governorate.

Tech: Flutter · Dart · Firebase FCM · REST API

Links: [Google Play](#)

South Water Oct 2022 – Dec 2022

On-demand water delivery app covering all areas in Aden Governorate — order placement, area selection, and delivery tracking.

Tech: Flutter · Dart · Firebase · SQLite · REST API

Links: [Google Play](#)

Tagerly Driver 2022 – 2023

Delivery management platform enabling multiple companies in Aden to register, dispatch, and track orders from e-commerce stores.

Tech: Flutter · Dart · Clean Architecture · REST API

Links: [Drive](#)

Aswaq Aden *Dec 2021 – Mar 2022*

City guide app displaying shopping stores and commercial parking locations across Aden — available on Android & iOS with Google Maps integration.

Tech: Flutter · Dart · Google Maps · REST API · Material Design

Links: [Google Play](#)

Mufeed *2022 – 2023*

Restaurant discovery app for Aden — menus, pricing, addresses, and estimated order totals in one clean interface.

Tech: Flutter · Dart · REST API · Material Design

Links: [Drive](#)

Tagerly E-commerce Suite (3 apps: 361 Yemen · Beutiqaty · Al-Diafa) *2022 – 2024*

Contributed to three live e-commerce apps under Tagerly — feature development, UI enhancements, REST API integration, and Play Store / App Store maintenance.

Tech: Flutter · Dart · REST API · Firebase
